

# CURRICULUM VITAE

## TERMOIMPIANTI Ltd.

**Name:** TERMOIMPIANTI Ltd  
**Taxpayer Identification number:** K 3211 9001 I  
**Address:** Rr.David Selenica, Tirana, ALBANIA  
**ZIP Code:** 1046  
**Telephone/ Fax:** + 355 4 4500517  
**E-mail address:** [g.bumci@termoimpianti.al](mailto:g.bumci@termoimpianti.al)  
**E-mail address:** [termoimpianti@gmail.com](mailto:termoimpianti@gmail.com)  
**Web address:** [www.termoimpianti.al](http://www.termoimpianti.al)

TERMOIMPIANTI was founded in 2003 and since then it is one of the most qualified companies in Albania regarding the design and implementation of mechanical and electrical systems.

Our technical licenses with the following Numbers: **N5266/1** , **M0533/1** , **N 5266/2** and **EZ0762/1** cover the following activities:

### **DESIGN ACTIVITIES:**

- Heating Ventilation Air Conditioning (HVAC) systems design.
- Design of BMS systems for civil and industrial objects.
- Design of electrical power plants and electrical distribution lines including solar and wind plants.
- Design of Electric Stations and distribution lines for low and medium voltage networks.

### **IMPLEMENTATION AND MAINTENANCE ACTIVITIES:**

- Installation and maintenance of Heating Ventilation Air Conditioning (HVAC) systems.
- Steel Constructions, towers, water towers, silos and similar steel works.
- Installation and maintenance of elevators, electric stairs, lifting platforms and belt conveyors.
- Installation of all plumbing systems including all types of supplies (pump stations, water mainline distribution system etc.)
- Installation and maintenance of Fire Protection Systems.
- Thermo-insulation, Hydro-insulation, Noise-insulation and other special insulations systems.
- Installation and maintenance of Pneumatic systems for security and control usage.
- Installation of Under Pressure Steel and non-Steel Pipe lines.
- Lighting and Highway signals
- Installation and maintenance of BMS systems for civil and industrial objects.
- Installation and maintenance of electrical power plants and electrical distribution lines including solar and wind plants.

- Installation and maintenance of Electric Stations and distribution lines for low and medium voltage networks.

***Also our company is officially representing the ACE Group in Albania.***

***The ACE Group is composed by the following companies Airwell, Wesper, Electra etc.***

***Also we are representing the COSTER spa in Albania which is one of the most important companies in BMS systems production.***

### **Our Company's Activities from 2011-2003**

- **A.N.T.A Rinas Tirane (Tower and Base Building in Mother Teresa International Airport Rinas)**  
(4500 square meter construction surface)  
Design assistance, Installation and Start-up of all mechanical and electrical parts:
  - Heating Ventilation Air Conditioning (HVAC) systems
  - Plumbing Systems
  - Fire Fighting Systems
  - Design and Installation of the total BMS system
  - Part of Power supply installation.
- **Profarma sha Tirane**  
(7500 square meter construction surface)  
Scope of the work:  
Design Implementation and Start-up of all mechanical electrical parts:
  - Water production plants and plants for the distribution of pharmaceutical and food liquids (stainless steel materials with high quality orbital welding certified according to DIN).
  - Steam production plants and plants for the distribution of pharmaceuticals under industrial and modern technologies.
  - Heating-Ventilation-Air Conditioning (HVAC) production and distribution plants for surgery rooms, hospitals and pharmaceutical industries (HEAPA filters and controlled overpressure).
  - Heating-Ventilation-Air Conditioning (HVAC) production and distribution plants for industrial and civil facilities
  - Hydraulic production and distribution plants of all kinds (pumping stations, warehouses, etc) for both industrial and civil applications.
  - Active fire protection systems using water, gas and intensive ventilation based on the latest technology.

- Automation, processes control and centralized monitoring for industrial and civil applications (BMS monitoring & control system for buildings).

- **New Mother Teresa International Airport terminal building (phase B)**

(3000 square meter construction surface)

Scope of the work:

Design assistance, Installation and Start-up of all mechanical electrical parts:

- Heating Ventilation Air Conditioning (HVAC) systems
- Plumbing Systems
- Fire Fighting Systems
- Design and Installation of the total BMS system with the partnership of Aeroteh.d.o.o (Siemens)
- Part of Power supply installation

- **Alliance Central Site**

The building dedicated for the production of the new ID card

Scope of the work:

Design assistance, Installation and Start-up of all mechanical and electrical parts:

- Heating Ventilation Air Conditioning (HVAC) systems
- Plumbing Systems
- Fire Fighting Systems
- Design and Installation of the total BMS system
- Part of Power supply installation

- **Serious Crime Court Tirana**

Scope of the work:

Design assistance, Installation and Start-up of all mechanical parts :

- Heating Ventilation Air Conditioning (HVAC) systems
- Plumbing Systems
- Fire Fighting Systems

- **Refurbishment of the old terminal at the Mother Teresa International Airport**

Scope of the work:

- Design assistance, Installation and Start-up of all mechanical and electrical parts:
- Heating Ventilation Air Conditioning (HVAC) systems
- Plumbing Systems
- Fire Fighting Systems

**TERMOIMPIANTI**

*Electrical and Mechanical Systems*

*Address: Rr. David Selenico, Tirana , ALBANIA*

*Tel/Fax: +355 4 4500517*

*Email: info@termoimpianti.al*

*Web: www.termoimpianti.al*

- Design and Installation of the total BMS system
- Part of Power supply installation

- **British American Tobacco (Capricio), Tirana**

Scope of the work:

Design, Installation and Start-up of all mechanical parts:

- Heating Ventilation Air Conditioning (HVAC) systems
- BMS Installation
- Innovative system with 100% of fresh air supply

- **Pre-trial detention centre, Vlora**

(8 000 square meter construction surface)

Scope of the work:

Design assistance, Installation and Start-up of all mechanical parts:

- Heating Ventilation Air Conditioning (HVAC) systems

- **New Mother Teresa International Airport Cargo building**

(1 500 square meter construction surface)

Scope of the work:

Design assistance, Installation and Start-up of all mechanical and electrical parts:

- Heating Ventilation Air Conditioning (HVAC) systems
- Plumbing Systems
- Fire Fighting Systems
- BMS Installation
- Part of Power supply installation

- **New Mother Teresa International Airport terminal building**

(8 200 square meter construction surface)

Scope of the work: *and Mechanical Systems*

Design assistance, Installation and Start-up of all mechanical parts electrical parts:

- Heating Ventilation Air Conditioning (HVAC) systems
- Plumbing Systems
- Fire Fighting Systems
- BMS Installation
- Part of Power supply installation

- **Tower and Base Building in Mother Teresa International Airport Rinas**

Scope of the work:

Design of BMS system for Heating Ventilation Air Conditioning

- **Commercial, Business and Residential edifices of 12 floors at Street “Bardhok Biba “**  
Tirana (19 500 square meter construction surface)  
Scope of the work:  
Design and Installation of Heating Ventilation Air Conditioning (HVAC) systems .
- **Business edifices of 1-2 floors assets of American Bank of Albania**  
Located in Tirana(3 location), Rinas, Gjirokaster, Korce, etc  
Scope of the work:  
Design and Installation of Heating Ventilation Air Conditioning (HVAC) systems .  
Total of BMS system for the HVAC
- **Commercial, Business and Residential edifices of 5 floors at “Selite” for BEST CONSTRUCTION**  
Tirana (20 000 square meter construction surface)  
Scope of the work:  
Design and Installation of Heating Ventilation Air Conditioning (HVAC) systems .
- **Commercial, Business and Residential edifices of 14 floors at BEST CONSTRUCTION**  
Headquarter office Tirane(Main DHL office, Main Banka Popullore office etc)  
(2800 square meter construction surface)  
Scope of the work:  
Design and Installation of Heating Ventilation Air Conditioning (HVAC) systems .
- **Military Building (Restaurant 2 floors 3000 square meter construction surface )**  
Military centre nr 101 Vau I DEJES, SHKODER (NATO INVESTEMENT)  
Scope of the work: *and Mechanical Systems*  
Design and Installation of Heating Ventilation Air Conditioning (HVAC) systems .  
*Tel/Fax: +355 4 4500517*  
*Email: info@termoimpianti.al*  
*Web: www.termoimpianti.al*
- **Commercial, Business and Residential edifices of 12 floors at Rruga “4 Shkurtit“**  
Tirana named “Green Park 2” (14 000 square meter construction surface)  
Scope of the work:  
Design and Installation of Heating Ventilation Air Conditioning (HVAC)systems .  
Part of BMS system for the Commercial and Business floors.

- **Commercial, Business and Residential edifices of 14 floors at Piazza “Karl Topia “**  
Tirana (**31 200** square meter construction surface)  
Scope of the work:  
Design and Installation of Heating Ventilation Air Conditioning (HVAC) systems.

**Tirana, JULY 2011**
